## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

Claims 1 and 2 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In regard to claim 1, the phrase "according to JIS K 2220-5.7-1993 for the above ink follower is 0.2 to 15%" is indefinite in that the specification does not disclose what limitations this language imparts onto the claim. Some explanation of what this claim limitation actually defines is needed. For example, claiming a specific chemical composition of the follower that enables the follower to meet this limitation should be recited.

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The references cited on the enclosed PTO- form 892 are cited for disclosing other ink followers that show a viscoelasticity.
